## Music Made for Lesbians

### In My Head

I said, she said, no more in my head  
We want to be together  
I said, she said, should we go to be bed  
We want to be together

This is the way we feel  
And we want it to last forever

I said, she said, no more in my head  
We want to be together  
I said, she said, should we go to be bed  
We want to be together

I said, she said, no more in my head  
We want to be together  
I said, she said, should we go to be bed  
We want to be together
