

NICOLA TEWHARE

Music Made for Lesbians

Come On Baby

Come on baby
You're going to break my heart
And I wonder what it's for

Come on baby
You've got to make a start
Can I walk you through my door

Come on baby
You need me for this part
And I know you will explore

Come on baby
My love is off the chart
And I know you've reached my core

You make me feel like a woman in love
And I know I won't forget
You make me feel like a woman in love
And I need to reconnect

Come on baby
You're going to break my heart
And I wonder what it's for

Come on baby
You've got to make a start
Can I walk you through my door

Come on baby
You need me for this part
And I know you will explore

Come on baby
My love is off the chart
And I know you've reached my core
