Plastic

I fell in love when I first saw you
I want more time, I want more from you
I want more love, I want more from you
I want more tears, I want more from you

You and me
I crave the sun, I crave the moon, the meaning
Of you and me

My heart beats faster darling
My love can never be denied
Even when you lie
My heart beats faster darling
My love can never be denied
Even when you lie

I'm going down
I'm going down - High
I'm going down
I'm going down - High
I'm going down
I'm going down - High
I'm going down
I'm going down - High
