This Moment

I'm never going to leave you in this moment
I'm never going to be with you again
I try to find a reason, believe me
I try to find a way

My feelings are delicious, delicious
My feelings are surreal

I'm never going to wake you in the morning
I'm never going to sing to you in bed
I try to find a reason, believe me
I try to find a way

I'm never going to leave you in this moment
I'm never going to be with you again
I try to find a reason, believe me
I try to find a way

My feelings are delicious, delicious
My feelings are surreal

I'm never going to wake you in the morning
I'm never going to sing to you in bed
I try to find a reason, believe me
I try to find a way
