Love Never Rules

You are my only sin
I promised you everything
I wanted you in bed so much
But all I can give is a loving touch

I cradle your face
In a warm embrace
And I need your naked body
And I want to kiss your naked body

Love never rules
It just disguises real confusion
Match your desire
In our fatal delusion
This is reality
This is reality
This is me

I know I drive you wild
I'm no more a child
We have drifts in conversation
Do you understand the implication

Love never rules
It just disguises real confusion
Match your desire
In our fatal delusion
This is reality
This is reality
This is me

Come a little closer
Is it riskier
My heart is on the line for more
I want you in bed for me to explore

Love never rules
It just disguises real confusion
Match your desire
In our fatal delusion
This is reality
This is reality
This is me
